

# AUTUMN SCHOOL: COMMUNITY-BASED PARTICIPATORY RESEARCH FOR CLIMATE ACTION AND THE SUSTAINABLE DEVELOPMENT GOALS

Apply [HERE](#) before August 1!

28 Sep-2 Nov - Online modules  
14-17 Nov - Dar es-Salaam, TZ

## WHAT IS IT?

- Training in community-based research, knowledge co-production and leadership for climate action and the SDGs.
- Prioritized countries: Kenya, Uganda, Tanzania, Sweden & Canada
- CBPR is an approach to research that involves active participation of actors, those whose lives are affected by the issues being studied, in all phases of research for the purpose of producing useful results to make positive changes.

## RESOURCES

- [Programme Outline](#)
- [Call for Applications](#)

Are you working on a community-based project or interested in developing a project addressing climate action, or any of the United Nation Sustainable Development Goals in your community? Want to build your skills and capacity in community-based participatory research (CBPR)?

The Swedish International Centre for Local Democracy (ICLD), CIFAL Victoria and the United Nations Institute for Training and Research (UNITAR) invites leaders from Kenya, Tanzania, Uganda and Sweden and researchers worldwide to participate in a hybrid course including a 6-week online and 4-day in-person training in Dar es-Salaam, Tanzania.

The climate crisis – and growing uncertainty and vulnerability of all systems supporting life on earth – requires a localized approach, drawing on local community knowledge and strong leadership in local governments.

## Course modules

1. Introduction to CBPR
2. SDGs: community engagement in mapping and reporting
3. Themes and issues in CBPR: Power, representation, ethics
4. Method I: Community Asset Mapping
5. Method II: Participatory Video & Photovoice
6. Turning Knowledge into Action
